Feeding Directions

- Feed ad libitum to adult cranes.
 - On average, adult cranes will consume 200 to 300 grams/day.
 - Amount consumed will depend upon time of year, life stage of bird, and reproductive phase.
- Offer crane chicks Mazuri® Ratite Starter Diet.
- Always provide plenty of fresh, clean water.
- Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly
 after feeding and/or handling animals.
- This diet is not for human consumption.

Storage Conditions

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
