

## Llama Diet High Fiber

Mazuri® Llama Diet High Fiber is a pelleted feed designed to provide nutrients in addition to that from pasture and forage.

### Features and Benefits

- **Added vitamin E and selenium** – Reduce or eliminate the need to supplement.
- **Reduced level of copper** – Especially designed for llamas.
- **Provides extra energy** – Maintain body weight and milk production.
- **Meets NRC recommendations for New World Camelids.**

### Product Form & Packaging

Catalog #0001425 | Pellet | 5/32" x 1/2" | 50 lb. (22.67 kg) net weight paper w/poly bag

### Guaranteed Analysis

Crude protein not less than .....	14.00%	Calcium not more than .....	0.95%
Crude fat not less than .....	1.50%	Phosphorus not less than .....	0.45%
Crude fiber not less than .....	20.20%	Salt not less than .....	0.35%
Crude fiber not more than .....	25.00%	Salt not more than .....	0.85%
Ash not more than .....	8.00%	Selenium not less than .....	0.75 ppm
Calcium not less than .....	0.45%	Selenium not more than .....	0.90 ppm

### Ingredients

Ground Soybean Hulls, Wheat Middlings, Ground Corn, Dehulled Soybean Meal, Dehydrated Alfalfa Meal, Cane Molasses, Calcium Carbonate, Salt, Thiamine Mononitrate, DL-Alpha Tocopheryl Acetate (Form of Vitamin E), Cholecalciferol (form of Vitamin D3), Magnesium Oxide, Dicalcium Phosphate, Monocalcium Phosphate, Vitamin A Acetate, Zinc Sulfate, d-Alpha tocopheryl acetate (form of Vitamin E), Zinc Oxide, Manganese Sulfate, Manganous Oxide, Ferrous Carbonate, Copper Sulfate, Ferrous Sulfate, Sodium Selenite, Calcium Iodate, Potassium Iodide, Cobalt Carbonate, Sodium Molybdate.

### Feeding Directions

- Feed to llamas as a supplement to available forage and roughage. This feed can be offered free-choice to llamas once a day for 30 to 60 minutes.
  - Animals should consume the pellet at a rate of 0.5% of body weight or more to meet NRC recommendations for new world camelids.
  - A sheep mineral mixture may also be offered free-choice to provide additional calcium and phosphorus, as needed.
- Always provide plenty of fresh, clean water. Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals.
- This diet is not for human consumption.

**Contains more than 15 ppm copper – If using for sheep species, ensure to balance the complete diet for total copper intake.**

**Caution: Follow label directions: Feeding added selenium at levels in excess of 0.3 ppm in total diet is prohibited.**

### Storage Conditions

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
