

Tortoise LS Diet

Mazuri® Tortoise LS Diet is a high-fiber diet designed for arid zone dwelling and grass-eating species such as gopher, sulcata, and Galapagos tortoises.

Features and Benefits

- **High fiber and low starch levels** – Timothy grass hay is the first ingredient.
- **Contains vitamins A and E** – For eye and skin health.
- **Contains live probiotics** – Supports gastrointestinal function.
- **No artificial colors.**

Product Form & Packaging

Extruded Particle | 1/4" x 1/2"

- **Catalog #3002770-703** | 25 lb. (11.33 kg) net weight bag material
- **Catalog #3002770-745** | 12 oz. (340 g) net weight resealable poly bag
- **Catalog #3002770-746** | Case: 6 x 12 oz. net weight resealable poly bags

Guaranteed Analysis

Crude protein not less than.....	12.00%	Moisture not more than.....	12.00%
Crude fat not less than	4.00%	Ash not more than	8.90%
Crude fiber not less than.....	18.00%	Vitamin A not less than	7000 IU/kg
Crude fiber not more than	22.00%	Vitamin E not less than	250 IU/kg
Dietary Starch not more than.....	7.00%		

Total Microorganisms not less than.....270,000 CFU/g
(Lactobacillus acidophilus, Lactobacillus casei, Bifidobacterium thermophilum, Enterococcus faecium)*

*Contains a source of live (viable) naturally occurring microorganisms.

Ingredients

Ground Timothy Hay, Ground Soybean Hulls, Dehulled Soybean Meal, Dried Plain Beet Pulp, Oat Hulls, Wheat Middlings, Cane Molasses, Dried Apple Pomace, Ground Flaxseed, Carrageenan, Ground Oats, Rice Flour, Wheat Germ, Dicalcium Phosphate, Calcium Carbonate, Sucrose, Fructose, Soybean Oil, Potassium Chloride, Brewers Dried Yeast, Salt, L-Lysine, Choline Chloride, DL-Methionine, Pyridoxine Hydrochloride, Dried Lactobacillus acidophilus Fermentation Product, Dried Lactobacillus casei Fermentation Product, d-Alpha Tocopheryl Acetate (Vitamin E), Dried Bifidobacterium thermophilum Fermentation Product, Vitamin D3 Supplement, Dried Enterococcus faecium Fermentation Product, Biotin, Yucca schidigera Extract, Menadione Sodium Bisulfite Complex (Vitamin K), Calcium Pantothenate, Vitamin A Acetate, Folic Acid, Manganous Oxide, Riboflavin Supplement, Preserved with Mixed Tocopherols, Zinc Oxide, Ferrous Carbonate, Thiamine Mononitrate, Rosemary Extract, Carotene, Citric Acid (a Preservative), Vitamin B12 Supplement, Nicotinic Acid, Copper Sulfate, Zinc Sulfate, Calcium Iodate, Sodium Selenite, Cobalt Carbonate.

Feeding Directions

- Feed tortoises between 1 – 4% of their body weight per day.
 - A 10 lb. (4.5 kg) tortoise will typically consume between 1/2 cup (45 g) to 2 cups (180 g) per day depending on activity level, environmental temperatures, and life stage.
- It is not necessary to moisten pellets with water. However, soaking the product may help to acclimate tortoises to the diet. If moistened, the diet should be replaced at least twice daily.
- Provide good quality forage such as grass hay or browse and fresh, clean water daily.
- Fresh fruits and vegetables may be provided, but at no more than 20% of the total diet.
- Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals. This diet is not for human consumption.

Important: Always provide reptiles with adequate natural light or a light source that supplies sufficient UV radiation between the wavelengths of 280 and 315 nm. Proper humidity levels are also critical for health and growth of reptiles.

Storage Conditions

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
