

LabDiet®

Your work is worth it.

PicoLab®

NATURAL SUNFLOWER

IRRADIATED

5LP8

Designed as enrichment for rodents, rabbits or primates

Irradiation treatment and special packaging provide virtually
bacteria-free dietary control

LabDiet® Advanced Protocol® Natural Sunflower Seeds provide additional activity for laboratory animals. They are an excellent source of fatty acids and amino acids to supplement daily rations if needed. These human-grade, edible grey striped sunflower seeds are the single ingredient, providing a natural and nutritious treat. Irradiation treatment and special packaging provide virtually bacteria-free dietary control.

FEEDING DIRECTIONS

Feed to rodents, rabbits or primates as enrichment. Add to feeders sparingly to avoid creating a dietary imbalance.

Manufactured for PMI Nutrition International LLC
4001 Lexington Avenue North
Arden Hills, MN 55126

NET WT. 15 LB (6.80 kg)

GUARANTEED ANALYSIS

Crude Protein (Min)	16.00%
