

Wild Carnivore[®] Bear Plus Diet

Mazuri[®] Wild Carnivore[®] Bear Plus Diet is a high-fat diet designed to be fed to bears under the direction of a nutritionist.

Features and Benefits

- **High levels of sustainable fish meal and fish oil** – From menhaden, a high-quality protein source.
- **Lower protein, higher fat** – More closely resembles the protein to energy ratio of wild bear diets.
- **Contains probiotics** – Supports GI tract health.
- **Contains chelated, organic trace minerals** – For enhanced mineral absorption.
- **Provides long-chain omega-3 fatty acids** – From fish oil and flaxseed.
- **Extruded feed** – Optimizes digestibility of the diet.

Product Form & Packaging

Catalog #3006891-705 | Extruded Particle | 5/8" x 1" | 40 lb. (18.14 kg) net weight paper w/poly bag

Guaranteed Analysis

Crude protein not less than	19.00%	Moisture not more than	12.00%
Crude fat not less than	25.00%	Ash not more than	8.90%
Crude fiber not more than	7.00%	Sodium not more than	0.60%
Total Microorganisms not less than	270,000 CFU/g (Lactobacillus acidophilus, Lactobacillus casei, Bifidobacterium thermophilum, Enterococcus faecium)*		

*Contains a source of live (viable) naturally occurring microorganisms.

Ingredients

Linseed Meal, Fish Meal, Fish Oil, Ground Oats, Ground Corn, Porcine Animal Fat Preserved with BHA and Citric Acid, Feeding Oat Meal, Rice Flour, Dried Plain Beet Pulp, Hydrolyzed Poultry By-Products Aggregate, Cellulose, Dried Apple Pomace, Natural Flavor, Calcium Propionate (a Preservative), Preserved with Mixed Tocopherols, Salt, Taurine, Dried Lactobacillus acidophilus Fermentation Product, Pyridoxine Hydrochloride, Citric Acid (a Preservative), Choline Chloride, Dried Lactobacillus casei Fermentation Product, d-Alpha Tocopheryl Acetate (Vitamin E), Rosemary Extract, Dried Bifidobacterium thermophilum Fermentation Product, Dried Enterococcus faecium Fermentation Product, Calcium Pantothenate, Zinc Amino Acid Complex, Manganese Amino Acid Complex, Zinc Oxide, Vitamin A Acetate, Copper Amino Acid Complex, Cholecalciferol (Vitamin D3), Cobalt Glucoheptonate, Manganous Oxide, Menadione Sodium Bisulfite Complex (Vitamin K), Calcium Carbonate, Nicotinic Acid, Thiamine Mononitrate, DL-Methionine, Ferrous Carbonate, Riboflavin-5-Phosphate, Folic Acid, Vitamin B12 Supplement, Copper Sulfate, Beta Carotene, Zinc Sulfate, Calcium Iodate, Sodium Selenite, Cobalt Carbonate, Biotin.

Feeding Directions

- Feed 0.5 – 1% of body weight or as directed by your nutritionist.
- The amount of diet the animals require will vary according to the size, age, life stage, health status, and activity of the animal and the environmental temperature.
 - Adjust as necessary to maintain desired weight and body condition.
- Always provide plenty of fresh, clean water. Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals.
- This diet is not for human consumption.

Storage Conditions

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
