

Mini Pig Youth

Mazuri® Mini Pig Youth is a nutritionally complete, balanced diet for mini pigs that is designed to help young animals get off to a healthy start. This diet is specially formulated to support healthy growth and development in young miniature pigs from 0 to 4 months.

Features and Benefits

- **Complete nutrition** – supplemental vitamins and minerals not required.
- **High-quality milk protein** – helps transition weanlings.
- **Supports healthy growth** – balanced energy and amino acids.
- **Probiotics** – support immune and intestinal health.
- **Skin health** – contains biotin, niacin, amino acid balanced minerals, omega-3 fatty acids, and vitamin E.
- **Yucca schidigera extract** – helps control manure odor.
- **No artificial flavors.**

Product Form & Packaging

Catalog #3005271-203 | Pellet | 5/32" x 1/2" | 25 lb. (11.33 kg) net weight poly woven bag

Guaranteed Analysis

Crude protein not less than	20.00%	Phosphorus not less than	0.90%
Lysine not less than	1.30%	Salt not less than	0.60%
Crude fat not less than	4.00%	Salt not more than	1.10%
Crude fiber not less than	1.00%	Selenium not less than	0.30 ppm
Crude fiber not more than	4.00%	Zinc not less than	220 ppm
Moisture not more than	12.00%	Vitamin E not less than	50 IU/lb
Ash not more than	8.90%	Niacin not less than	40 mg/lb
Calcium not less than	0.80%	Biotin not less than	0.8 mg/lb
Calcium not more than	1.30%	Omega-3 fatty acids not less than	0.75%
Total Microorganisms not less than			270,000 CFU/g

(Lactobacillus acidophilus, Lactobacillus casei, Bifidobacterium thermophilum, Enterococcus faecium)*

*Contains a source of live (viable) naturally occurring microorganisms.

Ingredients

Ground Corn, Dehulled Soybean Meal, Dried Whey, Sucrose, Ground Flaxseed, Dicalcium Phosphate, Soybean Oil, Dried Plain Beet Pulp, Cane Molasses, Calcium Carbonate, Dehydrated Alfalfa Meal, Salt, L-Lysine, Dried Lactobacillus acidophilus Fermentation Product, Dried Lactobacillus casei Fermentation Product, DL-Methionine, Dried Bifidobacterium thermophilum Fermentation Product, Choline Chloride, Pyridoxine Hydrochloride, Dried Enterococcus faecium Fermentation Product, Zinc Amino Acid Complex, Calcium Pantothenate, Menadione Sodium Bisulfite Complex (Vitamin K), d-Alpha Tocopheryl Acetate (Vitamin E), Manganese Amino Acid Complex, Copper Amino Acid Complex, Preserved with Mixed Tocopherols, Cholecalciferol (Vitamin D3), Folic Acid, Yucca schidigera Extract, Cobalt Glucoheptonate, Ground Limestone, Vitamin B12 Supplement, Vitamin A Acetate, Riboflavin-5-Phosphate, Nicotinic Acid, Citric Acid (a Preservative), Copper Sulfate, Selenium Yeast, Thiamine Mononitrate, Zinc Oxide, Manganese Sulfate, Manganous Oxide, Zinc Sulfate, Ethylenediamine Dihydroiodide, Biotin, Rosemary Extract, Ferrous Sulfate, Basic Copper Chloride, Sodium Selenite.

Feeding Directions

- Offer free-choice from 7 days until 3 weeks of age or older. After 3 weeks, **feed 1.5 – 3% of their body weight per day** depending on activity level, other foods offered, environmental temperatures, and social structure. The feeding amounts are guidelines and should be adjusted based on the pig's body condition.
- **Grass, hay or produce** may be fed after 8 weeks but is not necessary in the diet and should not consist of more than 25% of the diet.
- Transition to **Mazuri® Active Adult** at 4 months of age or older as desired to regulate growth rate.
- **Gestation and lactation:** Transition to 50% Mazuri® Mini Pig Active Adult and 50% Mazuri® Mini Pig Youth. For higher energy requirements, as in the case of large litter size or multiple breedings, increase Youth to 60% of daily intake.
- Always provide plenty of fresh, clean water.
- Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals. This diet is not for human consumption.

Recommended Feeding Guide

Pig Weight	Daily Amount*
Under 10 lbs	Free choice
10 – 15 lbs	½ – 1½ cups (70 – 200 g)
16 – 25 lbs	¾ – 2½ cups (100 – 340 g)
26 – 35 lbs	1¼ – 3¼ cups (170 – 470 g)
36 – 50 lbs	1½ – 4½ cups (235 – 680 g)

*1.5 – 3% of body weight

Storage Conditions

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
