

# Mini Pig Mature Maintenance

Mazuri® Mini Pig Mature Maintenance is a nutritionally complete, balanced diet for mini pigs that is designed for less active and mature mini pigs. This diet is specially formulated to have high fiber to help keep pigs feeling full and maintaining a healthy weight. Formulated for less active mini pigs 1.5 years and older.

#### **Features and Benefits**

- Complete nutrition supplemental vitamins and minerals not required.
- Supports healthy weight formulated with oatmeal and flaxseed.
- Skin health contains biotin, niacin, amino acid balanced minerals, omega-3 fatty acids, and vitamin E.
- Immune and intestinal health added probiotics.
- Odor control contains Yucca schidigera extract to help control manure odor.
- No artificial flavors.

#### **Product Form & Packaging**

Catalog #3005274-203 | Pellet | 5/32" x 1/2" | 25 lb. (11.33 kg) net weight poly woven bag

#### **Guaranteed Analysis**

Crude protein not less than12.00%	Calcium not more than1.30%
(This includes not more than 0.5% equivalent crude protein which is not	Phosphorus not less than
nutritionally available to potbellied or mini pigs)	Salt not less than0.50%
Lysine not less than	Salt not more than1.00%
Crude fat not less than4.00%	Selenium not less than
Crude fiber not less than9.00%	Zinc not less than250 ppm
Crude fiber not more than	Vitamin E not less than 50 IU/lb
Moisture not more than	Niacin not less than40 mg/lb
Ash not more than	Biotin not less than
Calcium not less than	Omega-3 fatty acids not less than0.75%
Total Microorganisms not less than	270,000 CFU/g

(Lactobacillus acidophilus, Lactobacillus casei, Bifidobacterium thermophilum, Enterococcus faecium)\*

#### **Ingredients**

Ground Corn, Wheat Middlings, Ground Soybean Hulls, Oat Hulls, Ground Oats, Dehydrated Alfalfa Meal, Ground Flaxseed, Feeding Oat Meal, Dried Plain Beet Pulp, Cane Molasses, Dehulled Soybean Meal, Dicalcium Phosphate, Lignin Sulfonate, Soybean Oil, Salt, Calcium Carbonate, Ammonium Chloride, L-Lysine, Choline Chloride, Dried Lactobacillus acidophilus Fermentation Product, Dried Bifidobacterium thermophilum Fermentation Product, Pyridoxine Hydrochloride, Dried Enterococcus faecium Fermentation Product, Zinc Amino Acid Complex, L-Tryptophan, Calcium Pantothenate, Manganese Amino Acid Complex, d-Alpha Tocopheryl Acetate (Vitamin E), Ferrous Sulfate, Copper Amino Acid Complex, Folic Acid, Preserved with Mixed Tocopherols, Cholecalciferol (Vitamin D3), Yucca schidigera Extract, Cobalt Glucoheptonate, Vitamin B12 Supplement, Ground Limestone, Menadione Sodium Bisulfite Complex (Vitamin K), Vitamin A Acetate, Nicotinic Acid, Riboflavin-5-Phosphate, Citric Acid (a Preservative), Copper Sulfate, Selenium Yeast, Thiamine Mononitrate, DL-Methionine, Citric Acid, Manganese Sulfate, Manganous Oxide, Zinc Sulfate, Ethylenediamine Dihydroiodide, Biotin, Rosemary Extract, Basic Copper Chloride, Sodium Selenite.

# **Feeding Directions**

- Feed mini pigs between 1 2% of their body weight daily. The feeding
  amounts are guidelines and should be adjusted based on the mini pig's body
  condition, activity level, other foods offered, environmental temperatures,
  and social structure. Feed twice per day.
- Grass, hay or produce may be beneficial for more mature mini pigs to help keep them feeling full but is not necessary in the diet and should not consist of more than 40% of the diet.
- Gestation and lactation: Transition to 50% Mazuri® Mini Pig Active Adult and 50% Mazuri® Mini Pig Youth. For higher energy requirements, as in the case of large litter size or multiple breedings, increase Youth to 60% of daily intake.
- Always provide plenty of fresh, clean water.
- Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals.
- This diet is not for human consumption.

### **Recommend Feeding Guide**

Pig Weight	Daily Amount*
30 – 50 lb.	1 – 3 cups (150 – 450 g)
51 – 70 lb.	1½-4¼ cups (225-640 g)
71 – 100 lb.	2 ¼ - 6 cups (340 - 900 g)
101 – 125 lb.	3 – 7 ½ cups (450 – 1100 g)
126 – 150 lb.	3 <sup>3</sup> / <sub>4</sub> – 9 cups (570 – 1300 g)
Over 150 lb.	$4 \frac{1}{2} - 9$ cups $(675 - 1300 \text{ g})$ plus an extra $\frac{1}{2}$ cup for each 10 lb of body weight over 150 lb.

\*1-2% of body weight

## **Storage Conditions**

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.

<sup>\*</sup>Contains a source of live (viable) naturally occurring microorganisms.
