

Kangaroo & Wallaby Diet

Mazuri® Kangaroo & Wallaby Diet is specifically designed for Macropodidae of all ages.

Features and Benefits

- **Formulated for Kangaroos and Wallabies** – Meets nutrient requirements.
- **High levels of vitamin E and selenium** – Helps prevent white muscle disease.
- **Nutritionally balances available pasture and hay.**
- **Particle form** – Easy to feed; minimizes waste.

Product Form & Packaging

Catalog #0001500 | Extruded Particle | 3/8" x 3/16" | 40 lb. (18.14 kg) net weight paper w/poly bag

Guaranteed Analysis

Crude protein not less than	15.00%	Ash not more than	8.00%
Crude fat not less than.....	5.00%	Selenium not less than.....	0.60 ppm
Crude fiber not more than	10.00%	Selenium not more than	0.72 ppm
Moisture not more than	12.00%		

Ingredients

Wheat Middlings, Ground Corn, Ground Oats, Dehulled Soybean Meal, Ground Soybean Hulls, Whole Wheat, Wheat Germ, Cane Molasses, Calcium Carbonate, Dried Beet Pulp, Soybean Oil, Salt, D-Alpha Tocopheryl Acetate (Form of Vitamin E), Fructose, Dicalcium Phosphate, Choline Chloride, Pyridoxine Hydrochloride, Vitamin A Acetate, Menadione Sodium Bisulfite Complex (source of Vitamin K), Preserved with Mixed Tocopherols (Form of Vitamin E), DL-Methionine, Rosemary Extract, Vitamin B-12 Supplement, Cholecalciferol, Citric Acid, Calcium Pantothenate, Biotin, Nicotinic Acid, Riboflavin, Folic Acid, Thiamine Mononitrate, Manganous Oxide, Zinc Oxide, Ferrous Carbonate, Copper Sulfate, Zinc Sulfate, Calcium Iodate, Sodium Selenite, Cobalt Carbonate.

Feeding Directions

- Feed free-choice to kangaroos and wallabies of all ages, starting with joeys out of the pouch around 8 ½ months.
 - Bottle-feeding joeys: introduce slowly into the joey's diet once solid foods are being consumed.
- Provide pasture or high-quality hay – preferably grass hay – free choice.
 - Alfalfa hay is not recommended as the calcium:phosphorus balance is not appropriate.
- Adult animals can be expected to consume between 1% and 2% of their body weight depending on their physiological state and level of activity.
- Fresh, non-toxic, and thorn-free branches may be an important component of the daily diet.
- Always provide plenty of fresh, clean water.
- Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals.
- This diet is not for human consumption.

Caution: Follow label directions: Feeding added selenium at levels in excess of 0.3 ppm in total diet is prohibited.

Storage Conditions

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
